## Modular equipment

**Villard**  
M E D I C A L

Designer & Manufacturer of hospital furniture

[www.villard-medical.com](http://www.villard-medical.com)

# Designer & Manufacturer of hospital furniture since 1947

Expert in mobile and modular furniture, Villard is one of France's leading company in the design, manufacture and distribution of medical equipment and furniture for healthcare institutions. Based in its new 7,000m<sup>2</sup> factory in Neuville/Sarthe (Le Mans) since 2017, Villard promotes reliable and sustainable « French manufacturing », without intermediaries.

For over 70 years, Villard has continued to develop and adapt in order to reflect the evolution in hospitals, clinics and retirement homes as closely as possible, as well as to improve the working conditions of caregivers and adopt any new requirements in the field of prevention and hygiene in the healthcare setting. With its integrated design office and experienced technical teams, Villard designs and manufactures scalable furniture with a modular layout and certified quality, as recognized by more than 10,000 healthcare institutions worldwide.

## Quality controlled & certified

In 2012, Villard implemented its Quality Management System for all of the company's departments (design, production and marketing), endorsed by ISO 9001-2015 Certification.

## French manufacturer

All our products are produced near Le Mans in Sarthe. More than 80% of the components in our products come from French companies located within 300 km of our production site, the remaining 20% coming from other French or EEC companies.

## Sustainable & responsible production

From eco-design to the collection and retroprocessing of our end-of-life products, Villard is responsible producer that every day strives to reduce its ecological footprint.

# → Key figures

- Since **1947** :  
taking care of caregivers  
for over 70 years

1947

- A new  
**7,000 m<sup>2</sup>** factory  
located near Le Mans

7 000

- **20,000** trolleys  
and cabinets  
produced per year

20000

- **355** tonnes  
of steel sheet and  
60,000 meters of tubes  
processed per year

355

- **5,000** trade references  
available

5 000

**Villard** worldwide

Through the creation of the Export department in 2009,  
Villard's solutions are currently distributing  
in more than 65 countries from all 5 continents  
and participates in the improvement and development of sanitary structures in developing countries.

Villard also collaborates  
with several international NGO  
and regularly takes part to assistance operations to help disaster-stricken countries.

Villard guarantees its products are 100% made in France, in our new 7,000 m<sup>2</sup> factory based in Neuville/Sarthe near Le Mans.

9001:2015

Certified ISO 9001 company since 2012, Villard ensures quality control at each stage of its production and for all departments : Design, Production and Marketing.

All products manufactured in our factory are guaranteed for 10 years against any manufacturing defect (excluding electronic and wearing parts, guaranteed for 2 years).

In order to reduce our ecological footprint, more than 80% of the components in our products are provided by French companies located within 300 km of our factory.

**More than Made in France,  
Choose Made in Villard.**

After-sales service is provided directly by our factory within a maximum period of 48 hours.

Villard solutions have been selected and approved for over 20 years by the largest public and private purchasing groups.

As part of our quality focus, Villard was awarded a rating of 9/10 by healthcare institutions for the quality of our customer support.

As part of its commitment to social responsibility, each year Villard participates in donating medical equipment to humanitarian and non-profitable organisations.

Taking care of caregivers for over 70 years, Villard's expertise has been recognised in more than 10,000 healthcare institutions in 65 countries around the world.

A 100% Made in France

## Modular range

### Robust

Built to last with non-rusty materials, the modular range Eolis® has an exceptional lifetime without corrosion risk or structure deterioration.

### Modular

The modular range Eolis® offers a tailor-made furniture (cabinets, carts, trolley) to meet the needs of the caregivers, services and healthcare establishments.

### Sustainable

The modular range Eolis® is entirely recyclable due to a production of recycled materials.

### 10 Year Warranty

The modular range Eolis® has a 10 years guarantee under normal use (excluding wearing parts and electronic components).

### Easy to move

The modular range Eolis® is equipped with Ø 125 mm ball bearing wheels. Directional wheels available as an option.

### Easy to clean

With curved edges, without nook and asperity for easy cleaning. The modular range Eolis® is highly resistant to medical and cleaning disinfectants.
